tasktrackr: Seamless Task Management for Individuals and Teams

tasktrackr is an all-in-one application designed to streamline your task management needs. Whether you're organizing personal tasks or managing a team, tasktrackr offers an intuitive interface to create, manage, and complete tasks efficiently.

Key Features

- **Task Homepage**: Effortlessly view, create, and mark tasks as complete, ensuring all tasks are managed effectively.
- **Calendar**: Access day-to-day and month-to-month views of task deadlines with easy navigation and task detail expansion.
- **Members Management**: Manage and edit user accounts for better team collaboration and account control.
- **User Account Management**: Simple and secure user login and registration.

System Requirements

- **Languages**: HTML, CSS, JavaScript
- **Software**: Any code editor (e.g., VS Code), local storage or lightweight database for offline data
- **Browsers**: Compatible with Microsoft Edge, Google Chrome, and Firefox
